Mountain Body ✔ our pick

Someone has finally found a use for the Great Salt Lake. And it smells really good.

Store Profile

The Scene
Mountain Body is famous for all-natural skin products and fragrant salt glows (the salt comes from our own Great Salt Lake). Products are handmade in Oakley, then shipped to the Park City spa and Salt Lake retail store. Both locations sport an "herbal deli" where customers can sample the potions and lotions.

The Treatments
Some of the crazier treatments include the Margarita Body Glow, Shiatsu Acupressure Massage, Volcanic Lava Mud Treatment and the Seaweed Wrap. Then there's the signature Salt Glow and Honey Treatment, wherein healing salts and moisturizing body butters are massaged deep into your craving skin.

The Products
The most popular products are the salt rubs and body butters. But it wouldn't hurt to try the oatmeal soaps, mud masks, bath bombs and massage oils.

What You'll Spend
Treatments range from \$40 for a facial, to \$125 for the Salt Glow. A two-hour package costs \$210. Take-home jars of the salt rubs and body butters are around \$16 each.
